

Wow!

MUMMIFY AN ORANGE

Before using a knife make sure you ask an adult first or get them to help you.

You will need	
*	An Orange
*	Salt
*	Bircarbonate Soda
*	Small Bandage Roll
*	Ground Cinnamon
*	Knife
*	Teaspoon
*	Cup
*	Paper Towel

1 Slice the top of the orange about half way down

2 Squeeze excess juice into a cup

3 Scoop the insides of the orange into the cup with a teaspoon

4 Place a paper towel inside the orange, to dry it out, for about 5 minutes

5 Remove the paper towel

6 Sprinkle about half a teaspoon of cinnamon inside the orange

7 Pour the salt and bicarbonate soda into the orange until it is full

8 Wrap the orange with a bandage. Start by wrapping across the cut you made earlier. (Try to wrap as tightly as you can).

9 Keep the orange in a cold dark place for around a month and you will have a mummified orange!

If you want to learn more about the Ancient Egyptians and mummification download our activity booklet.
